INTRODUCTION

This is the third Retrospective Bibliographical Series published by the Coconut Information Centre funded by the International Development Research Centre (IDRC) Canada. This Service is provided by the Centre to overcome the information gap in major subject areas covering the period 1900-1965. Two Series published earlier covered the subjects "Pests of Coconut" and "Coconut Breeding".

Every attempt has been made to present a comprehensive coverage. All major abstracting services, bibliographies and indexes have been consulted and 710 entries retrieved through these sources are presented under the names of countries and diseases. A detailed subject index is provided with geographical and author indexes. Only bibliographical citations are provided for the articles.

Requests for copies of articles listed in this series can be provided from our resources or from outside sources.

I wish to record my appreciation to the staff who worked so willingly to make this service a success.

Project Leader

Coconut Information Centre,
Coconut Research Institute,
Lunuwila.

LIST OF JOURNALS ABBREVIATED

Administrative Report. Director of Agriculture Ceylon	Adm. Rept. Dir. Agric. Ceylon
Administrative Report of the Agriculture Department, Mysore	Adm. Rept. Agric. Dept. Mysore
